This Standard Limited Warranty covers batteries only if battery capacity falls below 80% of rated capacity or if the battery leaks. For batteries that fall below 80% of rated capacity or that leak, this Standard Limited Warranty does not cover any battery if the diminished battery capacity or leak is caused by:

(i) The use of a third-party battery charger which does not meet Samsung's specifications or has not been specifically approved by Samsung for charging the battery;

(ii) Tampering, as evidenced by, for example, a broken seal or seals on the battery;

(iii) The use of the battery in equipment other than the Samsung device for which it is specified;

(iv) The battery was subjected to external forces beyond normal use; or

If the Product has any non-warranted damage, after-market modifications or out-of-specification, or non-approved parts that impair Samsung's ability to evaluate whether damage or defects are covered by the warranty or Samsung's ability to make an in-warranty repair (e.g., a cracked screen that must first be removed), then Samsung will notify you and you will have the following options:

(i) You may have Samsung return the Product to you at your cost and, at your option, resubmit the Product for warranty evaluation of in-warranty repair after the impairing condition has been repaired, corrected, or reversed; or

(ii) You may have Samsung repair, correct, or reverse the impairing condition at your cost, prior to Samsung's provision of such warranty evaluation or in-warranty repair. Samsung

will not make any warranty determinations or repairs until the impairing condition has been repaired, corrected, or reversed.

Under no circumstances will Samsung be obligated to maintain, restore, or repair any after-market changes to the Product's hardware or software.
